

How can you streamline patient visits?

SmartFlow Patient Workflow Software minimizes bottlenecks in your practice

Finally, there's a software solution that streamlines every step of the patient visit, from admission to discharge

Gain clarity about patient workflows and treatment status.

State-of-the-art electronic whiteboard provides a bird's-eye view of the patient visit in real-time, from anywhere in the practice.

Access and share critical patient information instantly.

Digitized consent forms, patient charts, and treatment and anesthetic sheets improve visibility and communication.

Increase revenue up to 20%.¹

Transfer estimates, track changes in real time, and capture charges automatically, reducing the chances of missed charges.

Increase capacity without increasing staff.

Streamlines operations, freeing up existing staff and helping practices to see more patients.

SmartFlow Patient Workflow Software has six time-saving features

Mitigate common bottlenecks, including lengthy client wait times, staff miscommunication, time spent on work-arounds, scanning and filing patient files, and tracking down missed charges

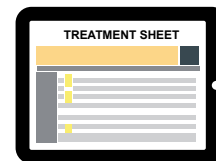

Digital forms

Make patient check-in experience faster and easier. Clients can review and sign from anywhere in the practice.

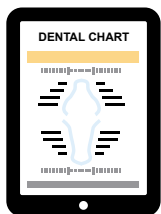

Optimized electronic whiteboard

Clarifies care flow and patient treatment status from anywhere in the practice. Communication is seamless, and there's never a question of what step to take next.

Digitized treatment sheets

Give teams mobile access to critical treatment information, speeding up communication to meet individual patient needs and standardize treatment protocols.

Digital dental charts

Nearly eliminate the need for paper charts. Take before-and-after photos, standardize charting across your practice, and provide streamlined patient-side access where you need it most.

Anesthetic sheets

Intuitive charting for anesthesia, saving your team critical time with automated reminders and a streamlined user interface.

Practice-specific analytics

Identify and minimize bottlenecks in your practice with the help of SmartFlow software analytics.
